THE WORLD
BEHIND
YOUR
CURTAINS

FOREST SHUTTLE® Series

When it comes to comfort, the Forest Shuttle® lives up to its expectations. Being able to open and close your drapes remotely, from the comfort of your chair, when you are on holiday, automatically at pre-programmed opening and closing times or even linked to variable sunrise and sunset times. The Forest Shuttle® is the silent force behind the opening and closing of draperies all over the world.

The Shuttle® can be fully integrated in all major home automation systems.

For maximal safety, integrated emergency control ensures manual operation of the drapery in case of power failure.

The smooth and silent running curtain track system can, in addition to remote operation, also be operated by hand. Thanks to Touch Control technology, a gentle pull on the curtain is enough to activate the motor.

COLOUR OPTIONS SHUTTLE® L

PRODUCT INFORMATION

All Shuttle® motors offer these functions:

- Integrated Radio Frequency (RF) for Diamond Sense Remote control or wall switch;
- Integrated Emergency Control with automatic declutch in case of power failure, to ensure a manual operation of the curtains;
- Touch Control Technology, gently pulling the curtain by hand will activate the motor. Sensitivity adjustable¹;
- Modular motor¹, different modules can be attached for various control options: Infrared, Domotics, Building/Hotel Automation, Serial Communication;
- Integrated Z-Wave Plus as option (only Shuttle® S/M/L);
- Easy integration¹ in apps of Google / Apple;
- Ultra Silent motor;
- Slow start and slow stop;
- Full automatic setting of the limits;
- Programming of intermediate positions possible;
- Stack-back position programmable to every desired setting;
- Motor can be mounted on the left or the right of the track;
- Can be used with curved/bended Forest motorised track (one or two bends of 90 degrees) or radius;
- For Skylight System (FSS®) special Shuttle® M with receiver and fixed drive is available;
- Tandem motor application possible as well;
- Motor can be placed upside down for recess installation.
- Warranty²: 10 years

¹ Except Shuttle® AC

² Except Shuttle® iOn

DECORATIVE TRACK OPTIONS

All Forest Shuttle® motors are applicable on the FMS® track system. More decorative options are also available: DS-XL® LED motorised and the Motorised Rod System (MRS®).

SYSTEM (MRS®)**

SHUTTLE DEMO SUITCASE

We have developed a special demo case for the Forest Shuttle®. In this case you will find a sample of the motorised Forest Shuttle® L system.

The case also contains examples of the motorised FMS Plus® rail, a "Forest Diamond" remote control in a white and black version, a multi-wireless wall transmitter and an example of the timer. All other accessories and documentation are of course included.

FOREST SHUTTLE® SERIES

The Forest Shuttle® is offered in 5 versions:

SHUTTLE® S

24 Volt

SHUTTLE® M

24 Volt

SHUTTLE® L

100 - 240 Volt

SHUTTLE® AC

100 - 240 Volt

SHUTTLE® iOn

14,4 Volt

FOREST SHUTTLE® iOn

Our bestselling Forest Shuttle® system is now also available in a wireless, battery powered version. The Shuttle® iOn is perfect for areas without nearby power points.

An extensive period of research, development and endurance testing on countless of track set-ups has resulted in the launch of the Forest Shuttle® iOn. The Shuttle® iOn's motor is fitted with an internal, removable heavy duty battery pack. Depending on the track size and curtain weight, the battery only needs to be charged 2 to 3 times per year.

You can expect the same unique functionalities as that of the wired Shuttle® L, like Touch Control technology. The motor has an integrated Multi RF receiver, allowing for operation using any Forest remote control option. The Shuttle® iOn can be used in combination with curved tracks, which is unique in the market. It fits all Forest motorised track systems, like the FMS® system, FMS® Plus recess system, MRS® motorised rod system and also the DS®-XL motorised track systems.

FOR USE IN

Hotels, offices, residences, boats and yachts, showrooms or anywhere a wireless motorised track system is required for curtains and drapes.

PRODUCT INFORMATION

- Li-ion rechargeable battery pack;
- Suitable for curtains up to 25 kg and 8 meter track length (straight track);
- Suitable for bended/curved curtain tracks with up to 2 bends in, for example, bay windows;
- A single full charge will last up to 6 months;
- Available colours: white, black.

FOREST SHUTTLE® Control Options

Our wide range of controls make finding a fit for your home even easier; controlling the curtains by hand, remote or even by building automation system. With the remote you can control the curtains in any position you like. Controlling the motorised curtain system by your smartphone or tablet, you can create and schedule customized room scenes that allow your curtains to operate on their own throughout the day.

FOREST DIAMOND SENSE REMOTE

15 Channel Remote control, possibility to control up to 15 systems individually and in group by integrated timer function or manual. Auto-On mode, when holding hand above it, the integrated LED light will automatically come on. Radio control, range up to 30 meters. Including magnetic wall support.

FOREST WI-FI DONGLE

With the Shuttle® Wi-Fi dongle, you can control your motorised curtains with your mobile device by the Forest Connect app or even by voice command with the easy integration in for example Google Home or Amazon Echo without the need for an additional hub or gateway.

FOREST WIRELESS CONNECTOR

The Forest Wireless Connector is an easy way to make the motorised curtain systems 'smart'. This wireless remote solution works in combination with an analogue timer or a smart plug with which services as Apple HomeKit or Google Assistant or Amazon Alexa become available. It is also easily incorporated into most popular building management systems, including dry contact controls.

BUILDING AUTOMATION / HOTEL CONTROL

The Forest Shuttle® can be connected to any Building Automation system, by relay control.

FOREST MOTORISED TRACK SYSTEM - FMS®

The Forest Shuttle® and the Forest motorised curtain track system (FMS®) make an unbeatable combination when it comes to noiseless operated curtains.

The FMS® System is an elegant system for all types of medium and heavyweight draperies. Available length up to 14 meter in 3 colours: timeless white and in a stylish black or blizzerring silver finish, making it suitable to fit in every design.

FMS® PLUS AND RECESS FIXATION

Instead of a regular ceiling fix or wall fix installation of the FMS® track system, Forest Group also offers a solution for recess fixed motorised curtain track. The FMS® Plus system is ideal for a clean, concealed curtain track installation. The recess profile can be fitted during the construction of the ceiling, the FMS® Plus motorised track can then be fitted once all the finishing works have been completed. The motor can be placed in a regular position, or upside down into the ceiling. The system can be fitted with the regular FMS® carriers, rotating carriers or the Forest Wave System for wave pleat.

FOR USE IN

Hotels, offices, residences, boats and yachts, showrooms, business meeting rooms, conference centers or anywhere a silent motorised track system is required for curtains and drapes.

PRODUCT INFORMATION

- Compact and noiseless operated motorised track system
- All Shuttle® motors can be used on the FMS® System;
- Available in white, silver and black;
- Assembly components are in similar colour available as track colours;
- Clickable off-set carriers for a straight heading of the curtain; rolling carriers and FES® Easyflex carriers also available;
- Especially designed for use in combination with Forest Wave System;
- Motor can be mounted on the left or the right of the track.
- One-way draw or center (split) draw curtains possible;
- All KS® bracket compatible;
- Ceiling brackets and wall brackets available;
- FMS® track can be made in lengths of up to 14 meter;
- FMS® track can be curved/bended;
- Recess fixation possible by recess profile in combination with FMS® Plus track.
- Warranty: 10 years

FOREST WAVE SYSTEM

Opt for a regular pleated heading or choose for a more atmospheric effect for the Forest Wave System. The FMS® system has been designed for use with the Forest Wave-system. Our wave system is designed so that the curtains maintain their folding effect from the moment they are dressed.

For more information about Forest Wave System and basic components please refer to our Wave Series brochure.

PROFILE

FMS® Track

- Weight 303 gr/mtr.
- Size 20 x 20 mm
- Aluminium extrusion
- Colours available: white & anthracite

FMS® Plus Track

- Weight 500 gr/mtr.
- Size 19,6 x 30 mm
- Aluminium extrusion
- Colours available: white & anthracite

FMS® Plus Recess Profile

- Weight 555 gr/mtr.
- Size 26 x 32,20 mm
- Aluminium extrusion
- Colours available: white & anthracite

FOREST FMS® TRACKS

The FMS® track system is in three versions available:

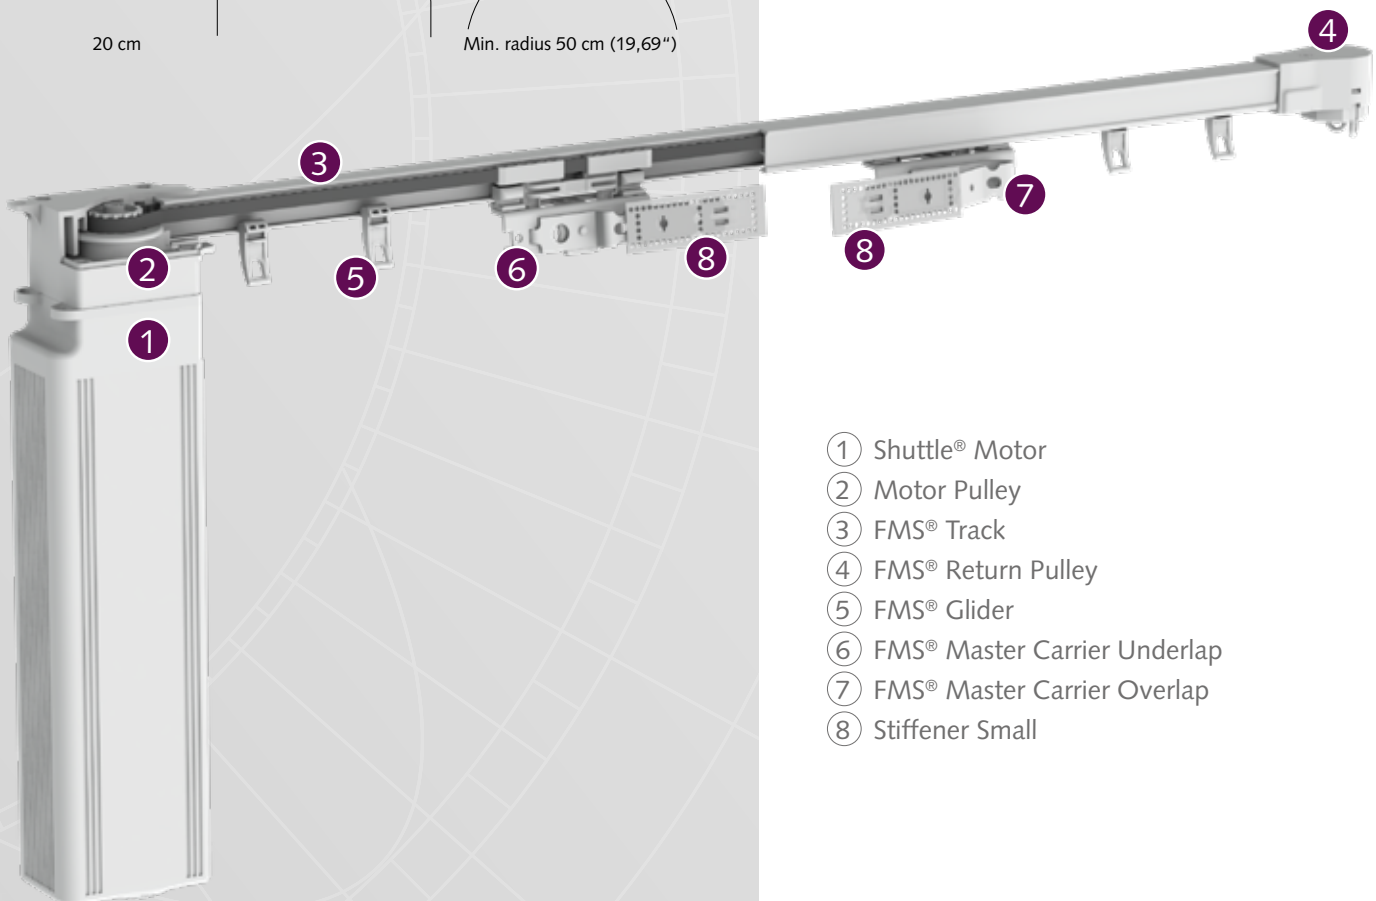

FMS® TRACK

FMS® PLUS

RECESS PROFILE WITH FMS® PLUS TRACK

BENDING / CURVING

The FMS® track and FMS® Plus track (except recess profile) can be bended and reversed bended with a radius of 20 cm (8"). Continuous curving can be done with the Electric Powered Bender.
